

Accessories

Mag Stripe Card Reader

Mag Stripe Card Reader (S0003)

Make clocking in and out with TimeClock a breeze with this simple mag stripe reader. Just plug it into the PC Keyboard port – no software driver needed. Use our specially designed ID Badge Kit (S0050) to create badges with pre-encoded magnetic stripes.

- Reads in either direction
- Quickly punches employees in or out
- Signals that cards have been read
- Designed for heavy use
- Plugs into PC USB port
- Requires Gradience TimeClock software

Fingerprint Reader

Fingerprint Reader (S0014)

For better security and to prevent “buddy punching” when clocking in and out with TimeClock, our fingerprint reader uses biometric technology to guarantee user identity. Includes CD with easy installation instructions.

- Prevent “buddy punching”
- Saves on buying mag stripe cards
- USB
- Clock in and out securely
- Maintenance Free
- Requires Gradience TimeClock software

Time Clock Remote

TimeClock Remote (S2216)

Wall mount version is ideal for warehouses or other remote areas where employees don't have access to a computer or dusty areas where computers won't thrive. Desktop version is great for the receptionist desk or areas not suited for a computer and monitor setup.

- Ethernet-ready
- TCP/IP
- Backlit LCD display
- Magnetic swipe card reader (track 1)
- Beeps on successful card swipe
- Requires Gradience TimeClock software

ID Badge Kit

ID Badge Kit (S0050)

Heighten security for your workplace by identifying each employee with a photo ID Badge. Our ID Badge Kit makes it easy to create 25 professional-quality IDs with pre-encoded magnetic stripes. Works with our Mag Stripe Reader (S0003), TimeClock Remote Terminal (S2216) and Gradience TimeClock software. Use our Gradience TimeClock or Records software to create and print the badges. (Requires heat laminator and slot punch, available at office supply stores.) Kit includes:

- 25 butterfly badge pouches with pre-encoded, high coercivity mag stripes (credit card size)
- 25 nylon badge clips
- 5 – 8.6" x 11" perforated sheets (8 labels per sheet) for printing
